# SALE REPORT

HOSTED ON
MartEye

We are delighted to report another successful June Online Machinery & Equipment Auction hosted on Marteye.

The sale attracted strong interest from bidders across the UK, alongside continued support from our loyal local farming community. The high level of online participation created competitive bidding throughout the auction and helped deliver excellent results for vendors.

A diverse range of machinery, equipment, trailers, implements and agricultural items were entered for sale, generating significant interest ahead of the auction. Well-maintained and quality items were particularly sought after, achieving strong prices across all sections.

The results once again demonstrate the strength of the online auction platform and the continued demand for good-quality farm machinery and equipment.

For a full breakdown of prices achieved and sale highlights, please read our detailed sale report.

Our thanks also go to all buyers who participated in the auction. Your support and enthusiastic bidding were instrumental in making the sale such a success, and we hope you enjoyed the convenience of bidding online.

Keep an eye on our website and social media channels for details of forthcoming sales and auction opportunities.

If you are considering selling machinery, equipment, livestock handling systems or agricultural assets, and would like a confidential discussion or a no-obligation quotation, please contact our team on 01609 633056.
